Ref: Proposed Court Rule No. 2003-47

Dear Sirs:

I am a seventy year old retired steelworker. I have asbestos of the lungs from working thirty some years in the steel mills. I believe that companies should be responsible for their actions. I should have the right to the court systems and trial by a jury. That is why I am opposed to the (Proposed Court Rule No. 2003-47). I did not ask for this disease, but I've got it. Don't take away my rights to access of our courts and juries.

Thank you for your attention.

William E. Wright.
